Club Meats up for Award-Winning Local Barbecue

by Marcus Dodson, Newsletter Editor

For an amazing start to June, the Sierra Nevada Section held their First Tuesday Dinner at BJ's Nevada Barbecue Company, hosted by Bev Pastorino and Jim Petruk. This is a restaurant that the club has been to in the past, though it has been a few years, and it was a massive hit with the club as well as an eagerly awaited return. The club had an incredible turnout of 32 people and the dinner was sold out.

BJ's is a well-known local barbecue joint located in Sparks, Nevada. Established in 1986, BJ's started as a small hole-in-the-wall barbecue spot with a

group of dedicated regulars who loyally kept the restaurant afloat. In 1991, the restaurant changed hands and expanded, quickly becoming a staple in the Reno/Sparks barbecue scene. In the years since then, BJ's has won eight different awards from the Best in the West Rib Cook-off, including the first place prize in 2022, as well as various other local awards and recognition from the National BBQ Association.

The Sierra Nevada Section was given a private room for the event with two dedicated servers, a full bar, and a bartender. The service was fantastic and the drinks were excellent, made with an

(Continued on Page 4)

PRESIDENT'S EXHAUST

Time for the Fireworks

Great Things Planned to Light up the Month

ith July here our Sierra Nevada Section can finally take advantage of the heat and enjoy some of our best out-

door events of the year. Last month had given us some great opportunities for some driving events and meals, and going forward into this next month we have some incredible things planned for the remainder of the summer.

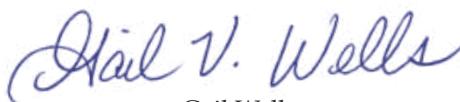

In June, we started off with an amazing evening at BJ's Barbecue in Sparks for our First Tuesday Dinner, hosted by Bev Pastorino and Jim Petruk. BJ's provided excellent service and delicious food for our group, and we all had a great time being able to catch up with each other and relish in the summer barbecue. The dinner was such a great success that we actually had to turn some couples away because we did not have enough room for them, so please make sure to RSVP in advance for our events in the future.

Later in the month, Vence and I hosted a Poker Run and lunch event, where we drove between many of our local sponsors before going to lunch. It has been a

while since our club has hosted a Poker Run event and it went quite well, with everyone having fun playing the hands of poker at each of the locations we stopped at.

As always, to start off this month we have a First Tuesday Dinner planned, this time located at the Fox Brewpub in Reno, hosted by Christy and Marcus Dodson. This will be a great way to kick off the month, so please make sure to RSVP.

Later in July, we return to Christy and Marcus's home for their annual Sierra Nevada Section Luau party. This is always one of the most widely anticipated events of our year, and we look forward to seeing not only many of our members in attendance but also members from outside sections. Make sure to wear your best tropical clothing for an evening of wonderful Hawaiian food and drinks. To RSVP, contact Marcus Dodson by email at marcus.c.dodson@gmail.com.

THE GROUP ENJOYED A LIVELY NIGHT & GREAT BBQ AT BJ'S.

Grilliant Eats

(Continued from Page 1)

attention to detail that was appreciated by our club members. Many club members spent the first part of the evening standing and socializing with the other members of the club and talked about their plans to make use of the good summer weather.

The stand out dishes for the night were the platters of ribs and brisket, both of which had been cooked to perfection and came with BJ's famous homemade barbecue sauce. Alongside dinner, Jim Petruk provided raffle tickets and some great prizes to keep the night fun and entertaining. The prizes included locally distilled alcohol, Mercedes® AMG swag, and high-end wine.

Thank you again to Jim and Bev for providing all the prizes and hosting such an amazing dinner.

As the weather has gotten warmer,

we have gotten an incredible increase in turnout for our events, even our First Tuesday Dinners. Sold out events will become more common going forward, and many of the restaurants we go to as a club require us to give an exact number of attendees for our events. Multiple couples were turned away from the dinner at BJ's because they did not RSVP in time. If you are interested in any of our future events, please make sure to RSVP well in advance to save yourself a seat.

The next First Tuesday Dinner is July 2 at Fox Brewpub in Reno, and is hosted by Christy and Marcus Dodson. To RSVP, contact Marcus Dodson at marcus.c.dodson@gmail.com or (775) 997-9901.

SPY SHOTS OF THE UPDATED S-CLASS TO BE RELEASED IN 2026.

Improvements to the Standard

Upgrades to the S-Class Expected for 2026

by Camille Dodson, Reporter for the Automotive Industry

Mercedes-Benz® has been spotted testing prototypes for an updated S-Class expected on the market late next year as a 2026 model. The current generation of the Mercedes flagship sedan, the W223, debuted in 2020 as a 2021 model.

Mercedes tends to launch an update for its cars after four years, which traditionally marks the midway point in the life cycle for the automaker's vehicles, though this update is a year behind that schedule.

Mercedes offers the 2024 S-class sedan with either a 429-hp turbochar-

ged 3.0-liter inline-six-cylinder engine on the S500 or a 496-hp twin-turbo 4.0-liter V-8 on the S580. Both powertrains can be supplemented by a 48-volt hybrid system and pair with a nine-speed automatic transmission and 4Matic all-wheel drive. The S580e plug-in hybrid uses an inline-six and an electric motor to pump out 510 horsepower, all-wheel drive is standard here as well.

The S-class will be face lifted in 2026 and then likely again in 2029, three years before the end of production, giving it all of the fun perks of the 2024 model with some upgrades. The first update is not merely a nip-and-tuck job but a more significant surgery that touches the front and rear ends as well as the cockpit. Our contact at the Mercedes headquarters in Stuttgart, Germany, expects new bumpers, mirrors, wheels, lights, and an illuminated new-look star pattern grille that can stage a variety of themes from festive to dynamic, some only when the vehicle is

(Continued on Page 8)

THE HEAVILY CAMOUFLAGED CAR SHOWS THAT THERE MIGHT BE CHANGES TO THE HEADLIGHTS & GRILL AREA.

Improvements to the Standard

(Continued from Page 7)

stationary, others also on the move.

The new interior should feature a redesigned dashboard with a revised multi-mode hyper screen and a large optional passenger display. You can still have that busy four-spoke steering

wheel, but some of the notoriously vague touch sliders will be replaced with capacitive buttons and more precise thumbwheels.

It points to the current S-Class having a longer shelf life, likely part of the

fallout of the automaker's recent decision to keep gas-powered cars on sale beyond 2030, the date by which the automaker previously thought it would be a fully electric brand.

Improvements to the Standard

(Continued from Page 8)

Keeping current gas-powered models on sale for longer will buy Mercedes time to wait and see how the EV market develops, and potentially prepare previously unplanned successors for its

gas lineup. In the case of the GLE-Class and GLS-Class, our contact told us that Mercedes is even preparing a second update to extend the shelf life of those vehicles.

Judging by the camouflage gear on the S-Class prototypes, the update will consist of new lights at both ends and a larger grille. The taillights adopt three-pointed star motifs, similar to what's found in the latest E-Class, while the headlights have a similar design, in this case for the turn signals. An update for the EQS electric hatchback is due around the same time as the updated S-Class, and it will also introduce the star-shaped turn signals.

The new grille on the updated S-Class can clearly be seen extending lower into the front fascia. The rear section is heavily camouflaged, suggesting some changes are happening to the rear fascia as well. According to our photographer, the dashboard was also covered in areas, leading us to believe that there will be multiple changes to the dash as well.

Need a Hand? Club Gets Together for Reno Poker Run

by Marcus Dodson, Newsletter Editor

With overcast skies to provide a bit of shelter from June's hot sun, the Sierra Nevada Section of the Mercedes-Benz® Club of America set out on their Poker Run and Lunch event. The rules of the event were as follows: at each stop, each member of the group draws a

card from a standard 52 card deck, and at the end of the stops (with five stops in total), the members with the five best poker hands would win their prizes. Our group drew our first cards and set out from Mercedes-Benz of Reno to our other stops on our list.

Need a Hand?

(Continued from Page 12)

We stopped at each of our locations to visit our local newsletter sponsors who help support our club activities. The second stop on our list was Sierra Nevada Wheel Repair, where everyone drew their second cards before moving on. The next stop took the group to Auto Motion for their third cards, followed by Mike's Automotive for their fourth cards. Each sponsor was happy to see the group and gave brief explanations on their services that they provide to the community, with some sponsors even giving the group special coupons for their attendance. We finished the afternoon at Jalisco's Tacos for a lovely Mexican food lunch and drew our last cards there.

Thank you to Sue Dodson for helping with the drawing of cards throughout the day. After drawing their final cards, the results of who won were made clear. Jim Petruk took first place with a winning hand while Christy Dodson took second place and Patti Lamski took third. It was a lot of fun to

pass out the winners' prizes and chat with each other about what everyone had learned from each sponsor while eating some excellent Mexican food and margaritas.

IN CLOSING

Independence Day

Patriotism Can be a Good Look for Some People

by Marcus Dodson, Newsletter Editor

(Editor's Note: The following story may have absolutely nothing to do with Mercedes or automobiles, but we feel it's interesting nonetheless. If you have a humorous or interesting story you would like to submit for this column, call us at (775) 997-9901.)

This month's *In Closing* is a special celebration chock-full of fireworks and picnic baskets because of the 4th of July. It's a time for fireworks, barbecue sauce, probably a lot of drunken squalor, and a ton of misdirected conversations about politics. These people, while funny looking, seem to embody the patriotic theme.
